

Report from OR6T - contest 2 & 3 juli 2022

Hello,

Here is a short report of our participation in the past contest. As usual, we were active on 2m and 70cm. Activity was not great... it is summer, so people might have other things to do instead of sitting at their radio's. Nice tropo opening on Saturday evening, we were able to work OM6A on 70cm in SSB. They were even more than one hour still very strong audible after the QSO. Also on 2m we had nice DX contacts to the east. I attached some screenshots of our claimed QSO's and results.

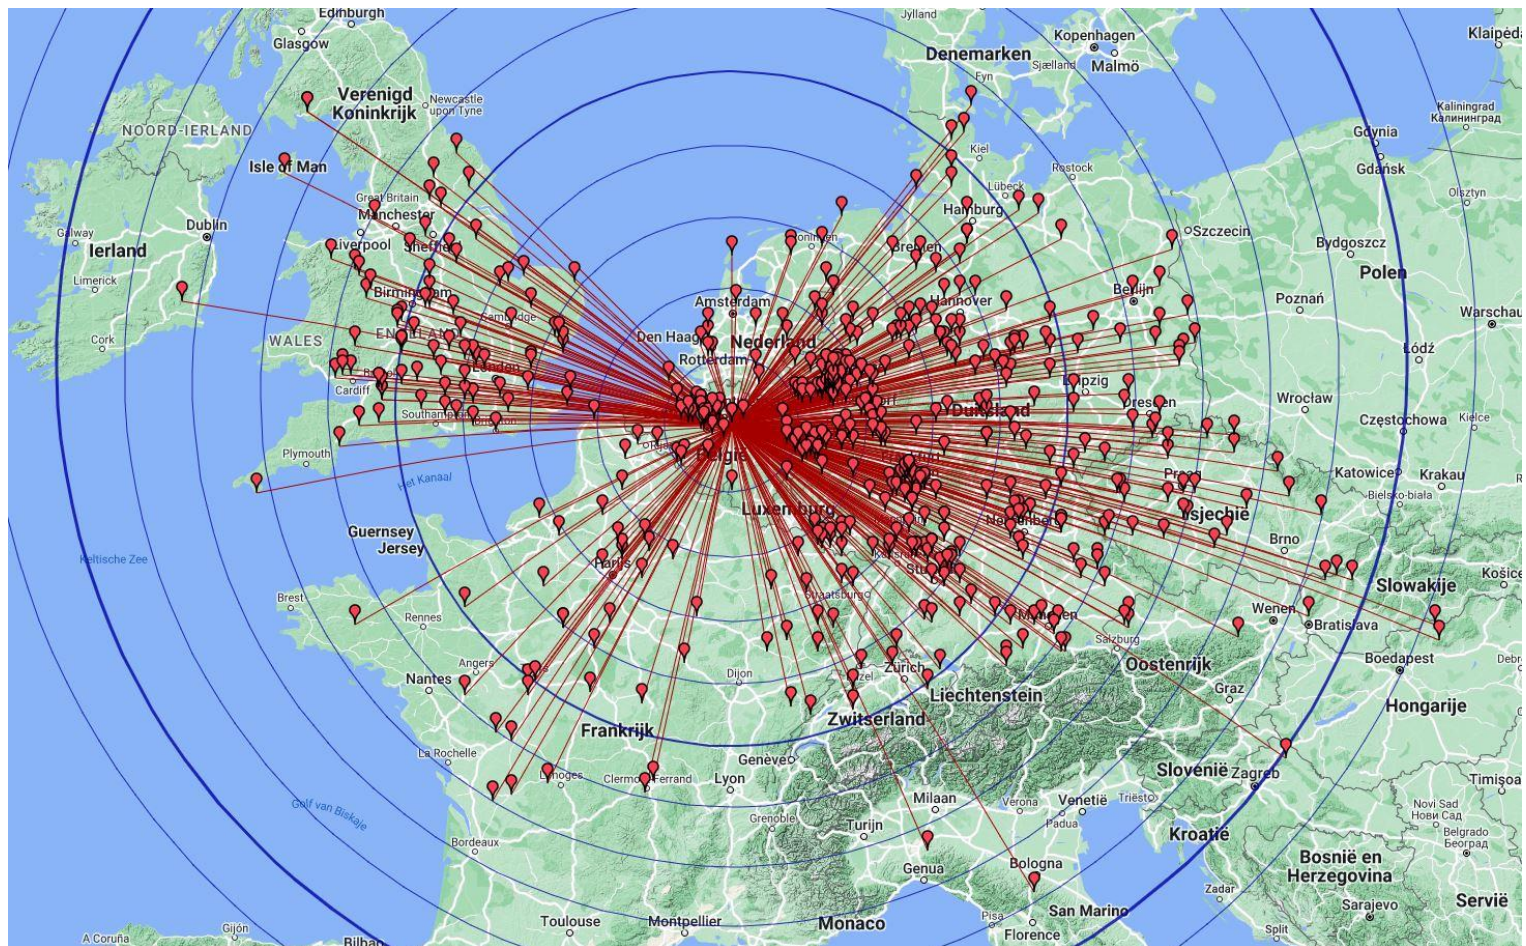

144MHz : 521 QSO's and 19 DXCC's - ODX = HA7NK in JN97WW at 1132Km. Claimed score = 192 201

432MHz : 208 QSO's and 12 DXCC's - ODX = OM6A in JN99JC at 1013Km. Claimed score = 74 279

We had good fun, nice sunny weather, some activity, some conditions, good food, some visitors, ... the contest was great! Next contest to concentrate on is 144MHz in September and then 432MHz in October. Hope to hear you guys then.

73, Kevin ON5DRE. (OR6T team)
