8	OE		Austria	1
9	OK		Czech Rep.	13
10	ON		Belgium	16
11	OZ		Denmark	3
12	PA		Netherlands	20

No spectacular conditions this contest. We made skeds with OM3KII and OM6A, but we had no success in completing the QSO. We also tried with numerous Italian stations to make the QSO, with no great success... At least the activity was pretty good. Too bad we missed some operating hours on Sunday-morning.

All of the equipment worked flawless. During checks before the contest, we saw that our "France" stack had a funny pattern. Probably a little water in a connector. But SWR was good, so we left it as-is. None of the PA's had a protection fault. As they sit remote, at the base of the tower, someone has to go and reset them if they trip. We have plans to connect them to our Node-Red desktop to reset them from the shack.

We had a great time, good food, good company, so it was a good contest!  
Hope to hear many of you during the upcoming 144MHz Marconi Memorial Contest.
